Permission to publish material that may identify students

Dear Parent / Caregiver,

In developing teaching and learning materials, publicising student achievements and promoting school achievements and educational programs, both the Department of Education and Training and the school may identify your son. This may occur through the publication of his photograph in a report of school newsletter, publication of his name in a school newsletter or article for the local press, publication of work samples and the like.

Work samples may include, but are not restricted to, written work, photographs of individual students or groups of students, art work or models. These work samples may be exhibited in books, displays, school reports, the local press, posters, brochures, the school website and school newsletters.

This identification of students and their work can only occur with the permission of the student and their parent / caregiver. Please complete the attached form to give permission for this possible identification to occur. The form needs to be returned to the school as soon as possible.

If at any time you wish to rescind your permission, please contact the school in writing.
